

## Electrolytic copper wire for soudronic welders

User sectors: Industrial for welding

Reference norm: ASTM B49

Material: CU ETP

Condition of material: Semi-crude

Available diameters of the wire: 1,20 mm, 1,38 mm or 1,50 mm

Packaging: Wire in octagonal cartons of about 1.500 kg

### Specifications of the available formats of the wire

Theoretical section (mm <sup>2</sup> )	Diameter (mm)	Theoretical mass (Kg/Km)	Condition of material
1,13	1,20	10,70	Semi-crude
1,49	1,38	13,33	Semi-crude
1,75	1,50	15,70	Semi-crude
