

## Declaration of Conformity - Regulation 1907/2006/EC REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals)

Pursuant to Article 33 of the REACH Regulation, Ghidini Trafilerie informs that the components made of brass alloy present in its products contain lead as an alloying element in quantities exceeding the threshold of 0.1% by weight. Lead has been included in the list of candidate SVHC substances for the authorisation process in the update published by the European Chemicals Agency (ECHA) on 27<sup>th</sup> June 2018.

Lead has been included with the following information:

Name of the substance	N. EC	N. CAS	Date of registration	Reason for registration
Lead	231-100-4	7439-92-1	27/06/2018	Toxic for reproduction (Article 57c)

Further information is available at the link <https://echa.europa.eu/it/substance-information/-/substanceinfo/100.028.273>.

The list of substances is available at the link <https://echa.europa.eu/it/candidate-list-table> and, being a constantly updated list, Ghidini Trafilerie ensures the constant monitoring of the possible inclusion of new substances in the list and the timely communication to its customers in the event that these substances are contained in its products.
